Messrs. A. M. BININGER & Co.

Gentlemen: I purchased, as you requested, a bottle of your "OLD LONDON DOCK GIN," as sold in the starts of this city, and have made chemical analysis of this sample. It contains 42 per cent. of absolute alcohol, with odor and flavor of Juniper berries only.

On evaporation to entire dryness, this Gin is ound to contain 1 42 100 ources of saccharine matter per gallon, and this residual matter contained nothing else.
